

# PRIME7 NEWS SPECIAL EVENT

7.30PM MONDAY 5<sup>TH</sup> DECEMBER

PRESENTED BY RAY MARTIN

**PRIME7 NEWS** will expose the dramatic public consequences of the rising ice epidemic plaguing regional Australia in a compelling one hour television special to air 7.30pm Monday 5<sup>th</sup> December exclusively on **PRIME7**.

Presented by Australia's most acclaimed journalist, **RAY MARTIN** travels through regional NSW, Victoria, Western Australia and Queensland to tell the shocking stories of those painfully affected by ice addiction – the devastated families, the victims, the doctors, the police, rehabilitation staff, emergency workers, and even the addicts themselves.

“I thought I'd read enough about the drug problems in regional areas, but until you get amongst it, you don't realise how these tight-knit communities are being torn apart. I was astonished at how widespread and common ice use is in some of the most beautiful spots in Australia. Like me, this special will concern you, provoke you and certainly make you think”, said Ray Martin.

A PRIME7 NEWS production, ICE: THE SCOURGE OF REGIONAL AUSTRALIA is an astonishing investigation into a generation that is being condemned to a life of drug abuse, crime and in some cases early death.
